

SAVE THE TOWN

The Silverado bank has been robbed and payments are due today on the town's ranches. If the money isn't recovered in time, Old Man Hennessey will be able to foreclose on the properties. It looks like the Hennessey clan is behind this evil deed. If the money isn't recovered, they will be able to take over the remaining local ranches and control the cattle market for the entire state.

It is up to you to recover the funds and save the town!

SCENARIO OVERVIEW:

- As you ride out from town you are immediately assaulted by five of Hennessey's henchmen lining the road. Get them quickly before they get you!
- Next you track the villains to Calavera pass only to find the pass blocked by a felled tree! Use your trusty lariat to drag the debris aside and clear the trail.
- Time was lost clearing the trail. Your only hope is to take the shortcut through the ancient burial grounds. Tread slowly to avoid stirring the spirits or angering the natives!
- As you are close in on the villains you can see them laughing at your feeble pursuit. They took out the bridge crossing at Red River Canyon and think their getaway is clean! You can try to jump the canyon or take the old path around. Hurry - time is running out.
- As you close in, you find they are waiting for you. It's an ambush! With only five shots left in your revolver, you must dispatch the five villains quickly.
- Once the villains are taken care of, recover the saddle bags with the town's money, round the turn at the bear that looks like a rock and bring the money back to town.

Actual course layout will be available on the morning of the shoot. No extra points for figuring out the five movie/tv references.
